Additional items may be required by a particular teacher after the time that this list has been published. The above list should help you acquire the majority of items needed during the school year. The life of supply items, especially pencils, varies considerably from student to student. Please have additional pencils, erasers, paper, glue, etc., on hand to keep your child supplied during the course of the year. It is important that they always have extras available. The use of mechanical pencils is a privilege that may be granted by the teacher. If a mechanical pencil is allowed, your child needs to know how to load the lead and it must not be so distracting that it keeps them or others from paying attention.

Copies made in the office are 5¢/page and some school supplies are available for a small fee.
